PROFESSIONAL SUMMARY

Detail-oriented Data Analyst with a B.E. in Computer Science and hands-on internship experience at Cyient. Proficient in Python, SQL, Power BI, Tableau, and Microsoft Excel. Skilled in data analysis, data visualization, dashboard reporting, ETL automation, KPI tracking, statistical analysis, exploratory data analysis (EDA), and predictive analytics. Experienced in building end-to-end analytics solutions using real-world datasets to deliver actionable business insights and support data-driven decision-making.

TECHNICAL SKILLS

Programming Languages: Python, SQL

Data Analysis & Machine Learning: Data Analysis, Data Cleaning, Data Transformation, EDA, Statistical Analysis, Predictive Analytics, Trend Analysis, Root Cause Analysis, Data Modelling, Pandas, NumPy, Scikit-learn

Visualization & Business Intelligence: Power BI, Tableau, Microsoft Excel, Dashboard Development, KPI Reporting, Data Visualization, Excel Dashboards, Chart.js, Leaflet.js

Databases: PostgreSQL, MySQL, Data Warehousing

Backend & APIs: Flask, FastAPI, REST APIs, ETL Automation, Reporting Automation

Tools & Platforms: Git, GitHub, Jupyter Notebook, VS Code

INTERNSHIP EXPERIENCE

Data Analyst Intern | Cyient, Hyderabad

April 2025 – July 2025

- Cleaned and analysed company datasets using Python and SQL to identify trends, patterns, and performance issues, enabling data-driven business decisions.
- Designed and built automated ETL data pipelines to auto-generate reports, reducing manual reporting effort by 40% per week.
- Developed Power BI dashboards displaying key business KPIs, allowing cross-functional teams to track performance in real time without manual intervention.
- Conducted exploratory data analysis (EDA) on business datasets to uncover root causes and patterns, and presented actionable insights to stakeholders.
- Executed A/B tests on business data and delivered clear findings and strategic recommendations to senior management.

PROJECTS

Real-Time Train Delay Analytics Dashboard

Oct 2025 – Jan 2026

Technologies: Python, PostgreSQL, FastAPI, Chart.js, Leaflet.js

GitHub: github.com/Prashant-Swamy/train-delay-intelligence

- Built a live train delay tracking system that automatically ingested data from the Indian Railways API every 6 hours into a PostgreSQL database, covering 100+ train routes.
- Implemented a 24/7 automated scheduler for continuous, zero-manual-effort data collection, enabling real-time KPI tracking across all routes.
- Developed FastAPI endpoints to serve delay data, worst-performing stations, and route summaries — processing 10,000+ records per cycle.
- Created an interactive Leaflet.js map dashboard visualising zone-by-zone train delays with 10+ KPIs to enable fast identification of problem areas.

E-Commerce Sales Analytics & Customer Churn Prediction Platform

Feb 2026 – Apr 2026

Technologies: Python, Pandas, NumPy, Scikit-learn, Flask, Tableau, Power BI, Microsoft Excel, Power Query

GitHub: github.com/Prashant-Swamy/ecommerce-sales-intelligence

- Cleaned and performed EDA on 100,000+ real customer orders using Excel (Pivot Tables, VLOOKUP) and Python to identify buying patterns and customer segments.
- Applied statistical analysis on sales data to evaluate the impact of discounts on revenue, with findings directly informing pricing and discount strategy.
- Built a machine learning classification model using Scikit-learn to predict customer churn with 82% accuracy, enabling proactive customer retention strategies.
- Delivered Tableau and Power BI dashboards tracking 15+ business KPIs by region and category, reducing manual reporting time by 35% versus Excel workflows.

- Developed a Flask web application allowing non-technical teams to enter customer details and obtain an instant churn risk score, democratising ML insights.

EDUCATION

Bachelor of Engineering — Computer Science & Engineering Guru Nanak Dev Engineering College, Bidar (VTU, Belagavi) CGPA: 7.61 / 10	<i>Dec 2021 – May 2025</i>
Pre-University Certificate (PUC) — Science Stream Shahu Maharaj PU College, Bidar 77%	<i>June 2019 – July 2021</i>
Secondary School Certificate (SSC) — Class X CBSE Shri Dattagiri Maharaj Public School, Bidar CGPA: 6.2 / 10	<i>June 2018 – July 2019</i>

CERTIFICATIONS & TRAINING

Data Analyst Certification Learning Lab Research Institute, Bengaluru 6-Month Intensive Programme	<i>Oct 2025 – Apr 2026</i>
---	----------------------------

- Covered full data analytics lifecycle: data collection, data cleaning, EDA, predictive analytics, data visualization, and KPI reporting using Python, SQL, Power BI, Tableau, and Microsoft Excel.
- Gained practical experience in ETL automation, dashboard development, reporting automation, and business intelligence using real-world industry datasets.

KEY ACHIEVEMENTS

- Saved 40% of weekly manual reporting effort at Cyient by building automated ETL pipelines with zero manual intervention.
- Analysed 100,000+ real customer records — from raw data cleaning through machine learning predictions and dashboard reporting — in a single end-to-end project.
- Built a fully automated railway analytics system collecting and refreshing live data every 6 hours with no manual effort across 100+ routes.
- Delivered dashboards in both Tableau and Power BI tracking 15+ KPIs, improving team reporting efficiency by 35%.
